Many multiple user licenses of Project Mentor are purchased with upgrade assurance. This option provides you with automatic upgrades to the latest Project Mentor version whenever upgrade assurance is in place. Upgrade assurance is charged annually at 15% of the license cost for the number of Project Mentor users that you have. For example, upgrade assurance on a 100 user license is A\$3,225.

Licensing

Project Mentor may be installed on stand-alone machines or accessed via a corporate intranet. A license is required for each individual who will access Project Mentor or undertake a Personal Learning Plan. End User License Agreement (EULA) details are available on our website.

GST/VAT

All purchases outside of New Zealand are exempt from Goods and Services (Sales) Tax.

Shipping

Project Mentor will be shipped on CD. Shipping by airmail is free to any AU destination. License and registration information will be sent by email. Prices for shipping by courier or other special delivery methods are available on request. Please note that only orders received before 3PM NZT will be processed that working day.
